Blackford County, Indiana  
Death Records - 1882 to 1898

1954177

These records were very poor and  
some were hard to make out.  
Many had no names at all.  
Consequently I did my best  
under these circumstances

## Index

Blackford County, Indiana,  
Death Records, 1882 - 1899

Early death records apparently were poorly kept, at times are of little value for genealogy-minded people. Many names were written as they sounded and were not always correct. Some health officials had too little concern for accuracy and they may have been too busy.

In these records, those for 1898 are missing.
